EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

A period has been inserted at the end of claim 13.

2. The following is an examiner's statement of reasons for allowance: Claim 1 has been allowed in view of applicant adding the subject matter of claim 8 into claim 1. Claim 8 was indicated as containing allowable subject matter in the first office action because Carroll, III while disclosing that the TDU is pressurized/flooded by a valve 74 (see column 5, line 49), does not disclose that that the pressure regulator system receives pressure from a selected one of the ballast tanks of the submarine or a gas generator. Further, none of the art of record provide motivation to modify the pressure regulator system of Carroll, III to receive pressure from a selected one of the ballast tanks of the submarine or a gas generator.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sherman D. Basinger whose telephone number is 703-308-1139. The examiner can normally be reached on M-F (6:00-2:30 ET).
